Sciencesconf

CCSD team

Feb 05, 2024

USER ACCOUNT

Sciencesconf is a multi-language and configurable platform for managing scientific conferences. From the reception of communications to the automatic editing of proceedings, as well as the reviewing and programming of topics, it facilitates the organisation of scientific events.

The platform does not offer logistical support for space rental, restaurant management, etc.

WHY CREATE AN ACCOUNT ON SCIENCESCONF

If you wish to register or submit papers in one of the conferences created on the SciencesConf platform, you must first log in, or create an account.

Creating an account allows you to access the services offered by the CCSD <https://www.ccsd.cnrs.fr/>`_ : Sciencesconf.org, HAL and Episciences.org.
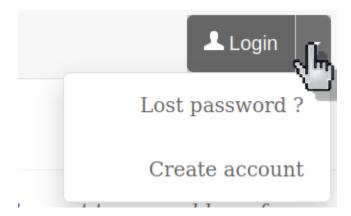

The list of events on the SciencesConf portal can be consulted without having an account.

Note: If you don't know if you already have an account, go to the account creation screen as shown below and enter your email address. Sciencesconf will tell you if your address already exists.

Note: If you have an account but have forgotten your password, refer to the "Login or Forgotten Password" section below.

CREATE YOUR ACCOUNT

There are two ways to create an account, * either on the portal: Sciencesconf.org, * or on an event website: With the help of the `Connexion` button, you can access the account creation.

If you do not have an account, follow the instructions below:

Creating an account is done in two steps:

1. fill in the form with the information necessary to create the account

2. validate the creation of the account by clicking on the activation link received by email
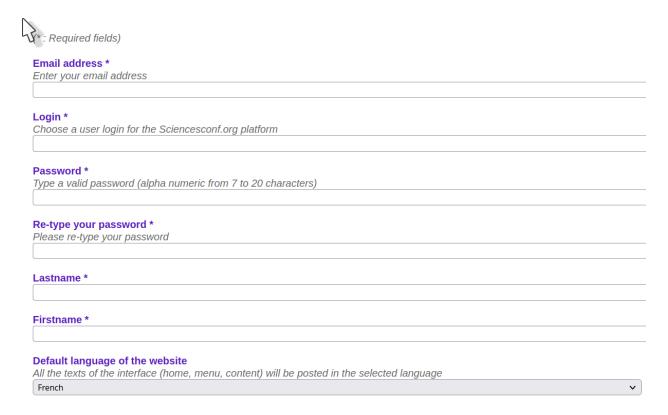

On the account creation form, enter the required information:

- email address: indicate a valid address to which the validation link will be sent.

- login: this is your username. It must be at least 3 characters long and **cannot be changed afterwards**,

- password: must be at least 7 characters

- lastname: with a capital letter in the initial (ex: Dupont),

- firstname: with a capital letter in the initial (ex: Camille).

Fields marked with an asterisk are mandatory.

Tick the "I am a human" box to validate the information

(*: Required fields)

Email address *
Enter your email address

Login *
Choose a user login for the Sciencesconf.org platform

Password *
Type a valid password (alpha numeric from 7 to 20 characters)

Re-type your password *
Please re-type your password

Lastname *

Firstname *

Default language of the website
All the texts of the interface (home, menu, content) will be posted in the selected language

French	⌄

To complete the account creation step, validate it by activating the link received by email. Note that the account activation email is not sent immediately (its receipt may take a little time). Remember to check that the email did not arrive in spam.
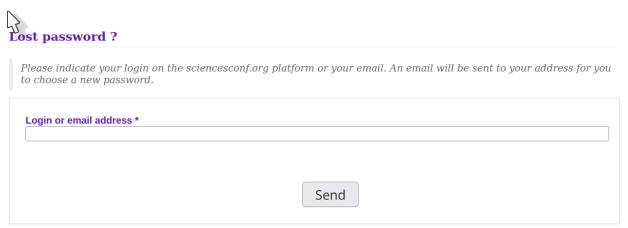

Once the account is activated, you can connect (see *Connect*).

Note: "En plus d'être actif pour Sciencesconf \`Sciencesconf.org, votre compte est aussi actif pour HAL et Episciences.org.

FORGOTTEN LOGIN OR PASSWORD

If you forget your password, click on "Forgot password?" at the top right of the "Login" button.

Enter your login or email address, then click on "Send"

Lost password ?

Please indicate your login on the sciencesconf.org platform or your email. An email will be sent to your address for you to choose a new password.

Login or email address *

Send

An email will be sent to you in order to recover access to your account.

If you do not receive any email, you have probably changed your email address, or it has been redirected to spam.

Report the problem to Sciencesconf Support : support@sciencesconf.org

Our services will update your account so that you can recover your login and password. Passwords are encrypted and you can only recover yours by following the online procedure (our services do not have access to them).

CHANGE YOUR ACCOUNT

To change your account, log in and click on "Edit my account" accessible by clicking on the arrow to the right of your name at the top right of the screen

All fields are editable except your login

ACCESS REGISTRATION FORM

To register on a Sciencesconf.org conference website, there are two possibilities:

5.1 You have an account

You already have an account on one of the CCSD web platform : Sciencesconf.org, Sciencescall.org, HAL or Episciences :

- click on the `Connect` button at the top right of the screen,

- then *My space > My registration* in the menu,

- and fill out the registration form established by the administrators of the conference.

5.2 You do not have an account

Si vous n'avez pas de compte, 2 possibilités :

- If the "Registration" page appears in the menu, you can register and create your account at the same time.

- If the « Registration » page is missing from the menu, you will first need to create your account <https://portal.sciencesconf.org/user/createaccount>`_, then log in to the conference site and from the menu *My space > My registration*, complete the registration form established by the conference administrators.

For registration inquiries, you can contact the administrators directly from the contact link in the conference menu. The email address is [short-name-of-the-conference@sciencesconf.org].

SUBMIT

How to submit your abstract and/or fulltext on a Sciencesconf website:

- it is necessary to have an account on the platform or create one,

- then, log in by clicking on the button (see *Connect*)

- Once logged into the platform, click the "New Submission" button and follow the steps to submit your abstract or article. (see *Make a new submission*)

What are the different statuses of a submit (see *The various statutes of a submission*)

How to update your deposit (see *Edit my submission*)

How to access the evaluation of my submission (see *Access the evaluation of my submission*)
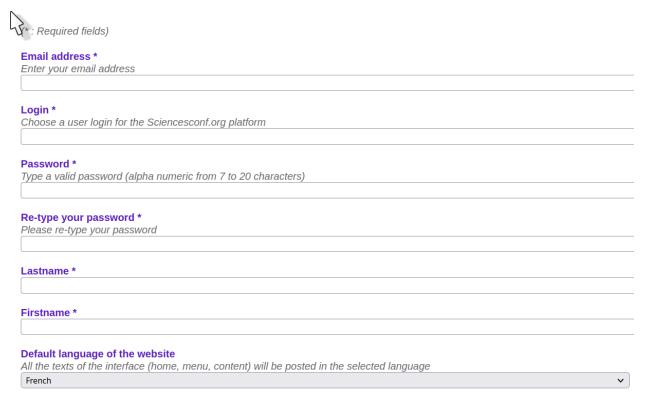

CONNECT

If you want to register or submit a paper on a Sciencesconf conference website, you should have an account and be log in.

Note: On the authentication screen, in the Login field, enter the login that you set when creating your account and not your email address.

If you do not have an account on one of the CCSD web platform : Sciencesconf.org, Sciencescall.org, HAL or Episciences, you can create one in two different ways :

- On the Sciencesconf.org main website : Create your account

(* : Required fields)

Email address *
Enter your email address

Login *
Choose a user login for the Sciencesconf.org platform

Password *
Type a valid password (alpha numeric from 7 to 20 characters)

Re-type your password *
Please re-type your password

Lastname *

Firstname *

Default language of the website
All the texts of the interface (home, menu, content) will be posted in the selected language

French

- On the conference website where you want to make a deposit, by clicking on the arrow to the right of `Connexion` button

Make sure to validate your account by clicking on the link received by email (please check your spam box if you don't receive the email).

Once the account has been activated, you can log in using your login and password.

Note: in addition to being active for Sciencesconf.org and Sciencescall.org, your account is also active for HAL et Episciences.org. The login is also done using the username (login) and the associated password.

MAKE A NEW SUBMISSION

If the submission period is open, you can submit your paper while connected on the website.

Depending on the configuration chosen by the conference administrator, you will be able to submit
:

- an abstract,

- a fulltext following an accepted abstract,

- a fulltext only.

Conference administrators determine file format, size limits and paper format.

Note: Some conferences use "double blind" reviewing. In this case, authors should not include
their name in the paper.

8.1 Submit an abstract

From the menu *My space* > *My submissions*, click on `Submit an abstract` button.

By default, you will have to fill in and check 4 steps: define the characteristics of your paper, add
the authors, deposit the file and save the submission.

You may not be viewing the third step `File(s)`, depending on the configuration chosen by the
conference administrator.

- Metadata step

Fill in at least all mandatory information marked with a *. Enter the title, abstract, keywords and choose the type of submission as well as the theme(s) in the proposed list.

If you are not asked for the summary at this stage, you will be asked at the `File(s)` stage, depending on the configuration made by the conference administrator.

Once you have filled in all the information, click on the `Next Step` button at the bottom of the page. This allows you to proceed to the step "Authors(s)".

Note: If you remain in the Metadata step, an error has been detected in the form. Error messages appear in red.

- Author(s) step

This part allows you to inform the authors of your submission.

By default, as a depositor, you appear as the author of the repository.

You can fill as many co-authors as you want by clicking on `Add an author (+)`.

In the window that appears, the first field allows you to search for authors already present either in the auréHAL repository, then in the Sciencesconf authors database.

You can fill as many authors as you want by clicking on `Add an author (+)`.

For each author, you can add their affiliations by clicking on `Add Affiliation`. In the window that appears, the first field allows you to search for structures already present either in the auréHAL repository, then in the Sciencesconf affiliations database.

It is possible that author affiliations are mandatory, depending on the setting chosen by the site administrator.

For French affiliations, the seizure of at least one supervisory body is mandatory.

When hovering over an affiliation, the `Edit` and `Delete` actions appear.

Once you have filled in all the information, click on the `Next Step` button at the bottom of the page. This allows you to proceed to the "File(s)" or "Summary" step.

- File(s) step

This step allows you to file your abstract as a file if it was provided by the conference administrator. You can also transfer additional data for your submission. If the abstract was already entered in first step, this part allows you to transfer additional data.

Otherwise, you will have to submit your abstract here.

The image below indicates that a file containing the abstract has been submitted.

Abstract

The main file will be automatically converted to pdf.

Parcourir... | Aucun fichier sélectionné.

Upload

FILE	ACTIONS
Resume0.pdf	✕

Do not forget to click on the `Upload` button. The file should appear below, under File. Check that the conversion to PDF has been successful by the presence of the icon .. image:: ../_static/deposer/icone_pdf.png.

Once you have filled in all the information, click on the `Next Step` button at the bottom of the page. This allows you to proceed to the "Summary" step.

- Overview step

Finally, in the `Overview` step, you will be able to view your submission (all the data plus any additional files). If you want to return to your repository, click the previous steps at the top of the screen, otherwise click on `Submit` button.

A pop-up window informs you of the registration of your submission.

Tip: To preview the correct PDF conversion of your file (from a .doc file for example), do not hesitate to click on *My space > My submissions* in the menu, then on the small eye to the right of your submission.

PDF version	:	PDF version

8.2 Submit a fulltext

8.2.1 Submit a fulltext following an accepted abstract
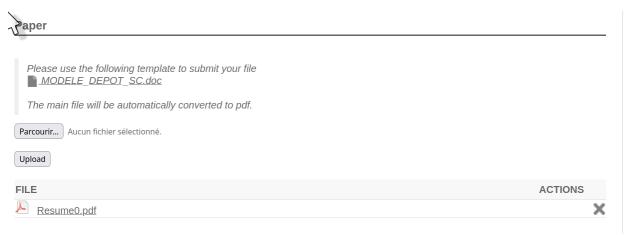

You have received an email indicating that your abstract has been accepted and you wish to submit your communication. Go to the menu *My space > My submissions* and click on the small `+` to the right of your summary repository.

You will see the 4 steps reappear: `Metadata`, `Author (s)`, `File (s)` and `Summary`. These data have been retained but can be modified.

In S```File(s)``` step , you will be able to choose and transfer the file of your communication.
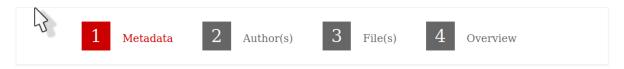

Don't forget to check the conversion of your file in pdf format. In Overview step , if your submission is acceptable for you, click on `Submit` button. The status of your submission is Initial. At this point, you can still modify your submission (See the *Edit my submission* page).

8.2.2 Submit a fulltext without an abstract

In order to submit a fulltext, go to *My space > My submissions* menu and click on `Submit a paper` button.

By default, you will have to fill in and check 4 steps: define the characteristics of your paper, add the authors, deposit the file and save the submission.

1 Metadata	2 Author(s)	3 File(s)	4 Overview

- Metadata step

Fill in at least all mandatory information marked with a *. Enter the title, abstract, keywords and choose the type of submission as well as the theme(s) in the proposed list.

Once you have filled in all the information, click on the `Next Step` button at the bottom of the page. This allows you to proceed to the step "Authors(s)".

Note: If you remain in the Metadata step, an error has been detected in the form. Error messages appear in red.

- Author(s) step

This part allows you to inform the authors of your submission.

By default, as a depositor, you appear as the author of the repository.

You can fill as many co-authors as you want by clicking on `Add an author (+)`.

In the window that appears, the first field allows you to search for authors already present either in the auréHAL repository, then in the Sciencesconf authors database.

You can fill as many authors as you want by clicking on `Add an author (+)`.

For each author, you can add their affiliations by clicking on `Add Affiliation`. In the window that appears, the first field allows you to search for structures already present either in the auréHAL repository, then in the Sciencesconf affiliations database.

It is possible that author affiliations are mandatory, depending on the setting chosen by the site administrator.

For French affiliations, the seizure of at least one supervisory body is mandatory.

When hovering over an affiliation, the `Edit` and `Delete` actions appear.

Once you have filled in all the information, click on the `Next Step` button at the bottom of the page. This allows you to proceed to the "File(s)" or "Summary" step.

- File(s) step

This step allows you to deposit the file of your communication as well as additional data for your deposit.

Do not forget to click on the `Upload` button. The file should appear below, under File. Check that the conversion to PDF has been successful by the presence of the icon .. image:: ../_static/deposer/icone_pdf.png.

New submission

Once you have filled in all the information, click on the `Next Step` button at the bottom of the page. This allows you to proceed to the "Summary" step.

- Overview step

Finally, in the `Overview` step, you will be able to view your submission (all the data plus any additional files). If you want to return to your repository, click the previous steps at the top of the screen, otherwise click on `Submit` button.

A pop-up window informs you of the registration of your submission.

Tip: To preview the correct PDF conversion of your file (from a .doc file for example), do not hesitate to click on *My space* > *My submissions* in the menu, then on the small eye to the right of your submission.

This will allow you to access the pdf version of your submission.

NINE
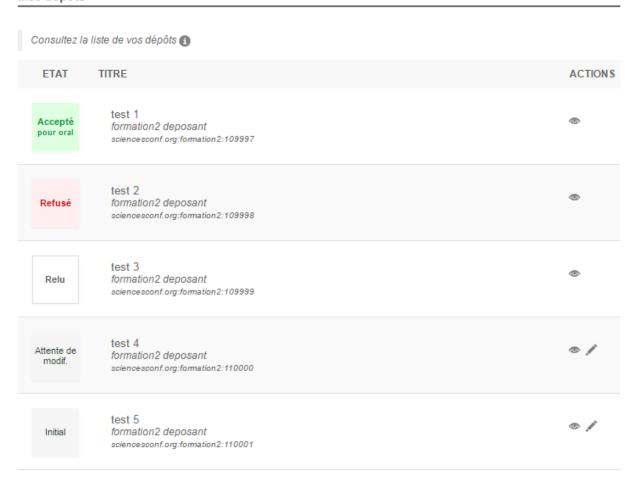

THE VARIOUS STATUTES OF A SUBMISSION

The various statutes regarding your submissions are :

- Accepted : your submission has been accepted and is no longer editable.

- Refused : your submission has been refused.

- Reviewed : your submission has been assessed but the coordinator has not yet decided what to do next. Your deposit is not modifiable.

- Awaiting update : the administrators of the website are waiting for a change on your part on the submission.

- Initial : indicates that your submission has not been reviewed by the reviewers. No action has yet been taken from conference coordinators, you can still edit your deposit.

TEN

EDIT MY SUBMISSION

You can't modify your submissions which are « Accepted » (in green), « Refused » (in red) or « Reviewed » (in white). If you want to edit these submissions, you can contact the conference's administrator. The contact's link is in the conference website menu.

However, if your submission is in « Initial » status (no action by reviewers or administrators) or in « Awaiting update » status (site administrators expect a change from you), you can go to the menu *My space > My deposits*, click on the pencil icon at the right of your deposit and edit it.

ACCESS THE EVALUATION OF MY SUBMISSION

Once your submission is evaluated, you will be able to access the notes and reviews of the reviewers by clicking on the small eye to the right of your deposit in the *My space > My deposits* menu.

If there are any changes to your deposit, you will receive an email with the comments of the coordinator.
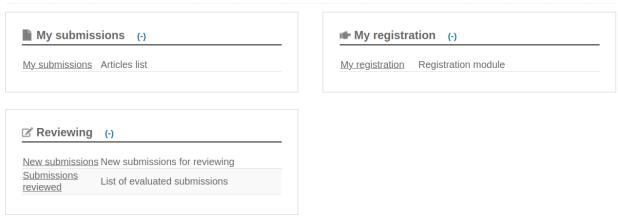

REVIEW

The reviewer is asked by the conference organisers to give his opinion on the communication proposals. This role is associated with the Sciencesconf user account, for a given conference. Depending on the configuration established by the conference organizers, the reviewer may :

- note a deposit according to the criteria defined in the rating grid,

- propose a change of theme,

- propose a change in the type (oral, poster, etc.) of communication.,

The reviewer has access to the following actions :

My Space

📄 **My submissions** (-)		👍 **My registration** (-)
My submissions	Articles list	My registration Registration module

📝 **Reviewing** (-)	
New submissions	New submissions for reviewing
Submissions reviewed	List of evaluated submissions

New sumbmissions to access the submissions to review

Submissions reviewed to access the submissions reviewed and/or update a reviewing
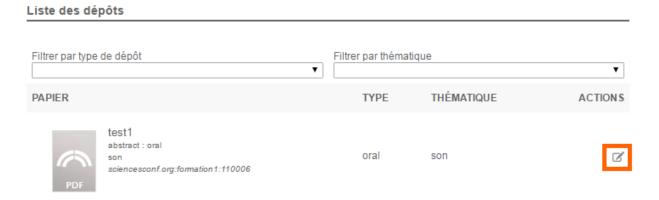

ACCESSING REPOSITORIES FOR REVIEWING

En tant que relecteur, vous pouvez être notifié automatiquement lors de la réception de nouveaux dépôts à relire.

In any case, as a reviewer, you can access the list of repositories to review by logging into your space and going to *Reviewing > New submissions*.

On this page, you will be able to filter the repositories to be review by "deposit type" or by "topic".

To evaluate a deposit, click on the small pencil to the right of each title; see image below:

On this new page, access the repository by clicking on the pdf link or on the PDF thumbnail, if the depositorhas submitted a repository in file format.

The notation grid allows you to rate the submission according to different criteria.

Depending on the configuration of this grid, for each criterion indicated, you can choose a note among those proposed and optionally enter a comment.

The weighting assigned to each criterion is indicated in the last column. A weighting of 0 means that the criterion is not taken into account when calculating the document score.

Grille de notation

Grille de notation proposé par le coordinateur
Remplissez le formulaire proposé par le coordinateur pour évaluer le dépôt

CRITÈRE	VALEURS	COMMENTAIRE	PONDÉRATION
Originalité	○ 0 - mauvais ◉ 1 - moyen ○ 2 - bon	Merci de changer le titre.	1
Contenu	○ 0 - mauvais ○ 1 - moyen ◉ 2 - bien		2

The coordinator will choose whether or not to make notes and comments of the reviewers visible to the depositor.

You will also be able to enter an internal comment (for the coordinator) and a global comment for the author. This second comment will not be sent automatically. It is also the coordinator who decides to send this comment to the depositor.

Finally, you can propose to change the Deposit type and Topic chosen by the depositor. You can add comments to your change proposals.

When you have finished reviewing a deposit, click Save. The deposit status changes to "Reviewed". The deposit automatically disappears from your "New submissions" list and is now present in the "Submissions reviewed" section.

Tip: If you have been appointed as a reviewer and the list of your deposits to be reviewed is empty, check that you are logged in with a reviewer account. In case of doubt, the administrator can check whether your account has the reviewer privilege. If you have multiple accounts, please contact [Sciencesconf support] (mailto:support@sciencesconf.org).

FOURTEEN

ACCESSING REVIEWED DEPOSITS

To access reviewed repositories, go to*Reviewing > Submissions reviewed*.

The different statuses are: pending modification, accepted, refused or initial.

You can view the repository by clicking on the little eye to the right of each repository.

In the following image, the coordinator sent a change request to the depositor. The depositor must change his or her submission before re-submitting it.

When the depositor has changed his or her deposit following your and the coordinator's proposals, the status changes to Initial.

By clicking on the pencil to the right of the deposit, you can re-evaluate the deposit. You will also be able to access your rating and any change requests made by the coordinator.

After a second reviewing, the repository will be marked as Reviewed.

The coordinator is responsible for accepting or refusing the deposit.

Relecture > Dépôts relus

Vous accédez aux papiers en cours de relecture, acceptés. Dès que la période de relecture est terminée, vous ne pouvez plus modifier votre évaluation.

GENERAL GUIDE

This guide describes the different configurable modules for managing a conference.

Overview of *Creating your conference website*

First steps in *website administration*

website setup

Mailing management

Registration management

Payment setup

Participants management

Editorial management

Reviewing management

Program management

Export to HAL

Once you have set all active modules, the `Opening the website` button will activate. If you wish, you can open the site to the public.

If you want to close the site, go to *My Space*. At the bottom of the page, you will have the option to click the `Close Conference Site` button.

CREATE THE CONFERENCE WEBSITE

The creation of a conference site on Sciencesconf.org takes place in 4 phases:

1. Request for *Creation of the conference* by yourself,

2. *CCSD validation of application*,

3. *Conference site administration*,

4. *Opening the site to the public*
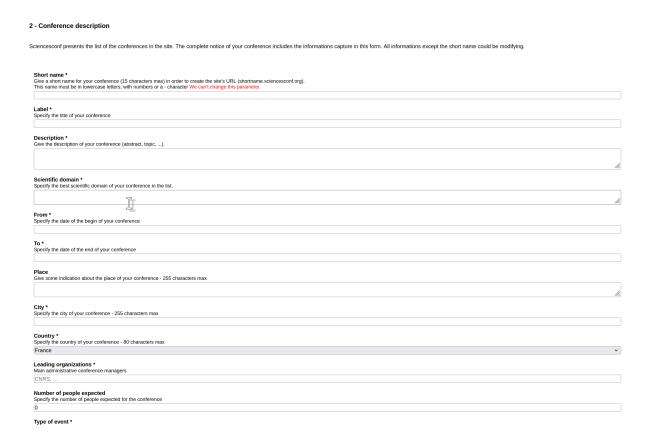

17.1 Creation of the conference

To request the creation of your conference, go to the Sciencesconf site and click on "Create a new conference".

After authenticating, complete the following steps:

1 Authentification *2* Description *3* Modules *4* Website *5* Confirmation

2 - Conference description

Sciencesconf presents the list of the conferences in the site. The complete notice of your conference includes the informations capture in this form. All informations except the short name could be modifying.

Short name *
Give a short name for your conference (15 characters max) in order to create the site's URL (shortname.sciencesconf.org).
This name must be in lowercase letters, with numbers or a - character We can't change this parameter.

Label *
Specify the title of your conference

Description *
Give the description of your conference (abstract, topic, ...).

Scientific domain *
Specify the best scientific domain of your conference in the list.

From *
Specify the date of the begin of your conference

To *
Specify the date of the end of your conference

Place
Give some indication about the place of your conference - 255 characters max

City *
Specify the city of your conference - 255 characters max

Country *
Specify the country of your conference - 80 characters max
France

Leading organizations *
Main administrative conference managers
CNRS, ...

Number of people expected
Specify the number of people expected for the conference
0

Type of event *

Fields marked with an asterisk are mandatory.

All the information entered in these steps can be modified after validation except the "Short name" field. This short name will be the beginning of your conference url: https://nomcourt.sciencesconf.org

17.2 CCSD validation of application

Make sure to fill in the description as well as the organizations carrying the event will facilitate the validation.

After confirmation of creation, your conference will be validated by our team within an average of 1 week following your request.

17.3 Conference site administration

The conference site must be configured before it can be opened to the public for registration and/or submission.
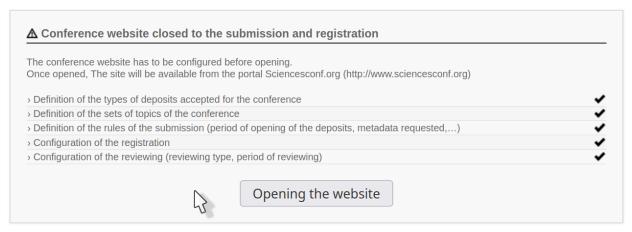

Once logged in, and from the *My Space* menu, you will see a table with the list of items to configure according to the modules enabled for your conference.

The site configuration includes:

- Definition of the types of deposits accepted for the conference

- Definition of conference topics

- Definition of the rules of the repository (opening period of the repositories, metadata requested, etc.)

- Reviewing setup (type of reviewing, reviewing period)

- Registration module setup

17.4 Opening the site to the public

When you have configured all of these (✓),the `Open the website` button will activate.

You will be able to close the site once the conference is over by clicking on *My Space* and then clicking on `Close the website`.

⚠ **Conference website opened**

The website of the conference is now open.
If you close it, the website won't be accessible

Close the website

WEBSITE ADMINISTRATION

The configuration of your SciencesConf website depends on the different modules you have selected.

18.1 Access to the conference space

Once your space has been accepted by our team, you will receive a confirmation email with the website URL.

To access your conference space, click on the URL and log in with your login and password.

By default, the account used for the site creation request has conference administrator rights.

As the site administrator, you have access to the "My space" section and can give the Administrator privilege to others. In the "My space" section, you will see a table with the list of items to configure according to the modules enabled for your conference.

At this stage, the site is only accessible to administrators and persons with a specific role given by the administrator.

For more details on privileges, please see the faq.

18.2 General setting
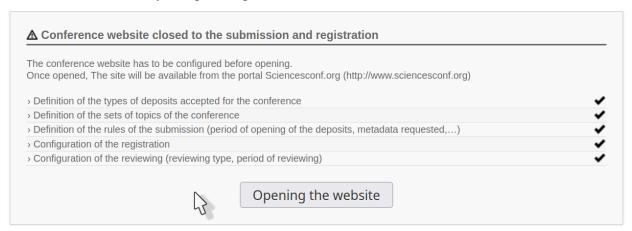

The first step is to check the general setting you entered when you requested to create a conference.

Go to *Administration > General setting*, you will find general conference information such as title, dates or location. This information will be posted on the Sciencesconf.org showcase site

They are also used for search engine referencing.

18.3 Modules

The elements visible in your space depend on the modules activated.

You may see fewer lines if you have not enabled all modules.

Once you have configured all of these lines, the `Opening the website` button will activate.

18.3.1 Enable/disable modules

To enable or disable modules, go to *Administration > Modules*.

When you activate the Registration management module and the Editorial management module, the sub-modules are disabled by default. We need to activate them one by one.

Don't forget to click the `Save` button so that the changes are taken into account.

Administration > Modules

Activate the modules for your conference

Editorial Management	Activated
Reviewing	Activated
Program	Activated
Proceedings	Activated

Registration management	Activated
Payment	Activated

Save

18.4 Users

18.4.1 Users

The *Administration > Users* menu lists all users who have logged on to your site, whether they are registered, depositors or simple visitors.

18.4.2 Rights

The privileges that may be granted are:

- Administrator: establishes the site in its general aspect. This privilege includes all other privileges.

- Coordinator: coordinates site submissions. He will define the reviewers, distribute the repositories, select the submissions and will be responsible for establishing the program in conjunction with the Webmaster

- Webmaster: personalizes the website (appearance and content)

- Manager: manages registrations

- Reviewer: evaluates submissions

- Editor: access only reviewer reviews

Privilège /accès module	Dépôts	Inscription	Gestion éditoriale	Relecture	Programme	Gestion des mails	Gestion de l'inscription	Site web	Administration
Administrateur	✓	✓	✓	✓	✓	✓	✓	✓	✓

WEBSITE MANAGEMENT

The second part of the configuration concerns the customization of the appearance of your conference website to give it a visual identity: the general aspect and the pages.

Plusieurs étapes sont disponibles pour paramétrer l'aspect du site web de la conférence :

- Général : langues, contact, documentation, **- En-tête** : formulaire de configuration ou bandeau personnalisé, **- Disposition** : alignement, largeur et position du menu **- Apparence** : image de fond, couleurs, taille et police de caractères ou feuille de style **- Pages** : créer et gérer le menu du site **- Page d'accueil** : contenu de la page d'accueil du site **- Actualités** : contenu du fil d'actualité **- Ressources** : stockage des différents fichiers textes et images du site (ex : logos, bandeau, contrat de cession de droits d'auteur, etc.) **- Statistiques** : information sur l'accès aux statistiques

19.1 General settings

In *Website* > *General*, you can set different parameters such as the language of your site and customize the support part.

19.1.1 The language

The available languages are French, English and Spanish.You have the choice to select up to three languages for your interface by holding the "Shift" key. If you choose multiple languages, users will be able to change the language of the site by clicking on the language codes at the top left of the site.

You can also set the default language for your site.

Note: We advise you to choose languages from the first configurations of your site. For each page or field created, you will need to complete the content in the chosen languages. If you choose languages along the way, you will need to go back to each page and enter the content in the added language(s).

19.1.2 Contact

Sciencesconf has created an alias for you. This one is of the type nomcourtconference@sciencesconf.org.

By default, this address will be the address used to contact support, i.e., to contact you. If you wish to be contacted by another email address, you can change the email address of the contact.

You can also add a link to the user documentation.

All this information will be visible in the *Support* section of the menu.

19.2 Header

In *Website > Header*, you can set the site header in three ways:

19.2.1 Header setup quick form

If you use this type of setting, you will need to choose a title for your conference. If your conference is in multiple languages, you will need to enter the title in each selected language.

You can enter a description, choose the color of your text and the background color.

You can also include a logo. This logo will appear on the top left of all pages. The recommended size is **150 x 150px**. The accepted formats are . jpg, . png or .gif.

You can also choose to display information such as the date and location of your conference.

Finally, you have the option to add a background image that will automatically position under the logo and text.

This image will be displayed at the original dimensions and will not be resized by the tool.

19.2.2 Customize your header in HTML

With this option, you have access to a text editor. You can either paste your image or switch to HTML mode and enter the HTML code of your header.

19.2.3 Header picture

If you use the "Header picture" option, your picture must be worked on by you. The image will not be resized. Just attach a file.

Recommended header picture size is **980 x 160px**.

Tip: If you switch from one mode to another, you will have to delete the images loaded in the previous options, otherwise you may have a stack of images on your header.

19.3 Disposition

La partie *Site Web > Disposition* concerne le style de votre site : - l'alignement à gauche ou au centre - la largeur de vos pages fixe ou variable - la disposition du menu : vous pouvez choisir entre un menu vertical (qui s'affiche à gauche de la page) ou horizontal (qui s'affiche en haut de la page, sous le bandeau de titre).

The website layout is optimized for computer navigation. There will be no adaptation for smartphone navigation.

19.4 Appearence

The *Website > Appearance* menu includes the choice of colors and fonts for your site. You have three ways to set the appearance of your site.

19.4.1 In one clic

You have the choice between 16 predefined graphic themes.

19.4.2 Quickly

You choose the background image and its repetitions (x,y). You define the background color, the main site color (for example the menu background color) as well as the text color.

In this section, you can also define the font, text size and titles.

19.4.3 Advanced

With this option, you can edit the site style sheet and configure the appearance in detail.

19.5 Pages

Pages allow to enrich the menu *Main menu*. To add pages, go to *Website > Pages*.

Vous pouvez ajouter des pages prédéfinies ou des pages personnalisables : - Page d'accueil : une page unique, Une du site ; - Lien : permet de créer un lien vers une page extérieure ; - Fichier : permet d'afficher un document dans le navigateur ou de le relier à une page ; - Soumission d'une communication ; - Consultation des communications par auteur, par intervenant, par thématique ou par type de document - Rechercher une communication de la conférence ; - Programme ; - Inscription à la conférence ; - Ressources : flux RSS, galerie photos, liste des participants, accès, sponsors, actualités ; - Page personnalisable : pour créer des pages d'information. Vous pouvez également ajouter autant de pages personnalisables que vous souhaitez.

After adding a page, you must click the `Save` button to see the page in the menu and then be able to edit it.

Note: On ne peut créer qu'une seule page par type de page sauf pour les pages 'Lien', 'Fichier', 'Page personnalisable' et 'galerie photos'.

19.5.1 The different types of pages

Homepage

The home page is the only page created by default and that cannot be deleted.

By default, the home page contains the content of the description you entered when you requested to create a website.

To change it, click the "Update page content" icon on the Home line or click *Website > Homepage*.

The homepage can be divided into 2 columns: a column called "main column" and another called "right lateral column". Each column is divided into blocks with a title and content.

Click "Add a block of text" to add content as blocks that you will place in the main area or in the right-hand side column. You can move the blocks with the arrows to the left of each block. See next picture.

In the "More pptions", you can also change the width of the main area, the background color of the lateral area and insert separators between the main part and the right column.

Web link

With this page, you add a link to your Menu.

You can add multiple pages of this type.

Example: pages indicating nearby hotels.

File

With this page, you add a file to your Menu.

You can add multiple pages of this type.

Example: a file with a campus map, a program made entirely by you, a list of restaurants nearby, etc.

Customizable page

This page is fully configurable using a text editor.

If your site is in multiple languages, the content must be configured in all languages of the site before you can save the page.

The text editor allows you to switch to HTML mode if you want to customize the page in more detail.

You can add multiple pages of this type.

Browse by

You can add pages to view accepted repositories. The types of consultations are by Author, Speaker, Document type or Topic.

Search

This page allows users to search for a deposit against the mandatory fields filled in by depositors.

Program

The Program page makes the program accessible to users in the Navigation menu. The configuration of the program content is done in the *Program* menu

Registration

The Registration page allows users to access the registration form even if they are not logged in. The registration form is configured in the *Registration management* menu

However, account creation and login are mandatory for those registering for your conference.

Photo gallery

With this page you can add images and create your own photo gallery.

You can add up to 5 pages of this type.

List of Participants

The list of participants updates automatically when a registration is validated and paid if the registration is paid.

The list of items displayed for each registrant can be configured by clicking on the "Update page content" icon.

If the number of participants in the "List of Participants" is not equal to the list of registrants, participants may not have finalized their registration (no payment, incomplete registration), or the registrants have not clicked on the link allowing them to validate the creation of their account.

Map

This page allows you to insert a link to a map using the HTML text editor.

You can also insert geographic coordinates in the latitude-longitude field.

Sponsors

This page allows you to add sponsors. You can indicate their name, a description, a logo and possibly the URL of the sponsor's website.

You can rearrange the list of sponsors by clicking and dropping on the list of sponsors.

RSS Feed

This page allows you to add an RSS feed address.

Submit

With the addition of this page, users will be able to submit their submission from the Navigation section. Configuration of the submission form is done in the *Editorial management* menu

However, account creation and login are mandatory for those who file a summary or communication.

News

Cette page vous permet de mettre en valeur vos actualités via une page dédiée. Après avoir créé la page, vous pouvez ajouter des actualités en allant sur le bouton 'Modifier le contenu' ou via le menu *Site web > Actualités*

19.5.2 Add a folder (a page with sub-pages)

You can also structure the menu by adding folders to group pages. In *Website > Pages*, simply click "Add Folder" and give it a name, then drag pages under that folder using the arrows to the left of each title.
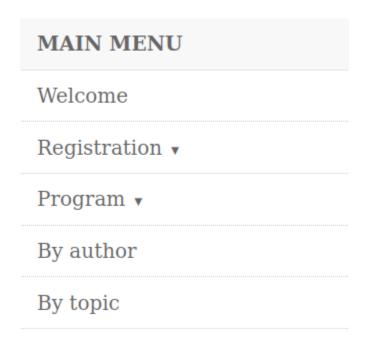

It takes at least two pages to create a folder with subpages. If there is only one page in a folder, it will not display, only the page will be visible.

19.5.3 Consultation rights, right to modify and edit content

For all pages, you can change the rights of consultation by type of user (pencil): public, member (person connected with a Sciencesconf account), editor, proofreader, manager, coordinator, webmaster and administrator).

For some pages, you can also set the modification rights.

Main menu   **Add page (+)**   **Add a folder (+)**

PAGES	ACTIONS
✛ 📄 Welcome [+]	✏ ☑

19.6 News

From the menu *Website > News*, you can manage the news of your conference.

Pour ajouter une actualité, cliquer sur "Ajouter une actualité".

Le formulaire de saisie d'une nouvelle actualité comporte trois champs. Tous les champs marqués sont obligatoires.

> Titre : titre de votre actualité Contenu : description de l'actualité URL cible : url de la page permettant d'avoir davantage d'informations

These news will be available on a page of your site or via RSS.

19.7 Resources

In *Website > Resources*, you have access to all the resources deposited on your site.

You can replace or delete them from this page. Resources are all external files used to enrich your website, such as images, sponsor logos, files used in File pages, etc.

19.8 Statistics

Upon creation of your site, you can request the creation of an access on Matomo, web analysis software of consultation statistics. It provides you with detailed reports on your website visitors: search engine and keywords used, their languages, your most popular pages…

Login credentials are listed on the *Website > Statistics* page.

For more information on this tool, you can read their documentation in English: Piwik tour

You also have the option to use Google Analytics if you already have an account.
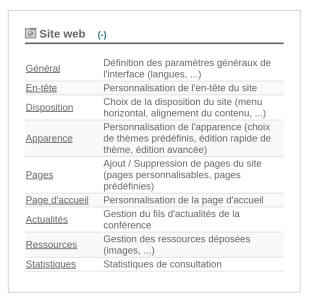

THE ADMINISTRATIVE ROLES

20.1 Webmaster

The webmaster is responsible for managing the appearance of the conference website. The privileges specific to the webmaster are framed in orange:

📅 Programme (-)	
Apparence	Personnalisation du programme

📷 Site web (-)	
Général	Définition des paramètres généraux de l'interface (langues, ...)
En-tête	Personnalisation de l'en-tête du site
Disposition	Choix de la disposition du site (menu horizontal, alignement du contenu, ...)
Apparence	Personnalisation de l'apparence (choix de thèmes prédéfinis, édition rapide de thème, édition avancée)
Pages	Ajout / Suppression de pages du site (pages personnalisables, pages prédéfinies)
Page d'accueil	Personnalisation de la page d'accueil
Actualités	Gestion du fils d'actualités de la conférence
Ressources	Gestion des ressources déposées (images, ...)
Statistiques	Statistiques de consultation

20.2 Redactor

20.3 Administrative

The administrative has access to all registration tracking and account creation.

20.4 Reviewer

The reviewer has access to the communications that the administrator or coordinator has assigned him for review.

20.5 Coordinator

The coordinator organizes the reviewing work, accepts or refuses the deposits and proceeds to the electronic publication of the communications. He also has rights on program configuration and email management. As with all other privileges, there may be one or more coordinators.

20.6 Administrator

The administrator can access to all configuration elements of the conference website, except reviewing. Ti is not necessary to add any role to the administrator except reviewer.

20.7 Contributor

This role is automatically done to the person who submit a communicationon Sciencesconf website for the conference.

20.8 Participant

This role is automatically done to a person who register on Sciencesconf website for the conference.

ALIAS MANAGEMENT

Each conference has an alias, an email address that redirects to one or more preexisting email addresses contained in it.

This alias is based by default on the short name of your conference followed by @sciencesconf.org.

When using the *Mailing* module, recipients will see this address as sender. In addition, if you want to be contacted directly through a generic address, the alias allows to redirect the received emails to the email addresses of several recipients.

You also have the possibility to create new aliases, in order to meet your needs, such as having an alias specific to the administrative part.

21.1 Create a new alias

In *Email Management > Alias*, click on the drop-down list at the end of the list, click on "Create a new alias" and enter the desired name. This will be prefixed with the short name of your conference, followed by "@sciencesconf.org".

Add new email
Add a valid email address

Add a valid email address

In the "Recipient" section, add valid addresses, they will appear at the bottom of the page in the Recipient section.

Complete the action by clicking on *Add Alias*.

21.2 Change the alias addresses

In *Mail Management > Alias *, choose the appropriate alias and add valid email addresses in the Recipient section. They will appear at the bottom of the page in the Recipient section.

The crosses on the right of each email address allow you to delete these addresses.

Complete the action by clicking on "Change Alias".

21.3 Delete an alias

In *Mailing management > Alias*, you will find the `Delete alias` button.

Note: All manually created aliases can be deleted except the one created by default by Sciencesconf.

If you do not want this alias to appear in the contact email address, the site administrator or webmaster can go to *Website > General* and change the line «contact address».

TWENTYTWO

APPEARANCE MANAGEMENT

Managing the appearance of emails can be found in *Managing Mails* > *Appearance*.

You'll have the ability to customize the email header using the text editor or HTML mode.
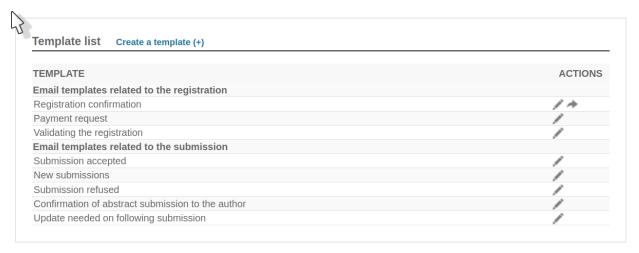

You can also choose the font that will be used in the sent emails.

Finally, you can choose whether or not to add the predefined footer in Sciencesconf.

TWENTYTHREE

MODELS

Sciencesconf has created several email templates related to either registration or deposit:

23.1 Creating and modifying templates

If you want to create new templates, click on "Create Template".

If you want to change these templates, click the pencil icon to the right of each line.

You will find a text editor that will allow you to change the title and content of each template.

If you want to return to the original template, click the arrow to the right of the pencil.

23.2 Tags

Tags have been defined to customize your emails with the data of your conference.

All the tags available in Sciencesconf can be found in the text editor. For example, if you choose "Conference Full Name", the displayed tag will be %%CONFERENCE_NAME%%. This tag will be replaced by the name of your conference in the e-mails sent.

The list of available tags is:

– User's full name in the form of 'firstname lastname' %%USER%%

– Login ID %%LOGIN%%

– Login ID %%LOGIN%%

– Conference full name %%CONFERENCE_NAME%%

– Conference contact email %%CONFERENCE_CONTACT%%

– Conference URL %%CONFERENCE_URL%%

– Document ID %%PAPER%%

– Submitter %%PAPER_USER%%

– Reference of the document filed by a contributor %%PAPER_REF%%

– Submission deposit type %%PAPER_TYPDOC%%

– Topic(s) of the deposit %%PAPER_SESSION%%

– Comment made by the coordinator during review %%PAPER_COMMENT%%

– Average rating given by proofreaders %%PAPER_NOTE%%

– Review grid %%PAPER_GRID%%

– User registration data %%REGISTRATION_DATA%%

MANAGEMENT OF PREDEFINED LISTS

If you want to create recipient lists, go to *Email management > Predefined Lists*.

Click on "New list", enter a title and add "free" recipients or recipients related to types created in Sciencesconf based on privileges, deposit or registrations.

If you choose to add new recipients, emails are manually entered into a predefined contact list. Each address is separated by a semicolon.

new recipient
Add new email address ("example@domain.fr" or "lastname firstname <example@domaine.fr>")

test1@mail.com;test2@mail.com;test3@mail.com

There is no procedure to import contacts from a csv file.

Remember to click on the line that appears "Add Recipient(s)".

This new list will appear in the recipients in the *Mailing* feature.
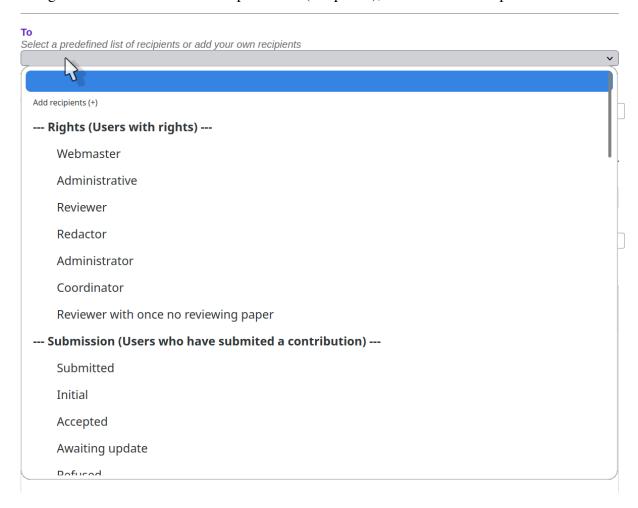

Warning: SciencesConf is not a mailing list management system, the limit of emails to send is 500. Beyond the servers saturate. So prefer the use of a system of type Sympa.

MAILING

Sending emails is done in the section *Mail management > Mailing*.

Sending emails is divided into three parts: "A" (recipients), "Content" and "Options".

Depending on your choice of recipients, you will have access to certain templates in the "Content" section.

In "A" you will find the recipient lists sorted by privileges, deposits, registration status and also your

pre-defined lists. However, you can also add new recipients.

In the "Content" section, you will find the predefined templates as well as your custom templates. You can choose a template or write your email directly using the text editor and HTML mode.

You will also have the option to attach a file with a maximum size of 200 MB.

Finally, in the third part "Options", you can configure the sending of the email to the corresponding authors, to all administrators and acknowledgements of receipt.

Before sending, you can preview your message.

For each recipient, you will have access to the content of the email. If you have used one of the templates you will see tags being replaced by custom information.

In this space, you can delete one or more recipients and send.

For multi-lingual sites, the email language is the one defined by the "Interface default language" parameter chosen by the user in their account profile if it is part of the conference site languages.

Note: Emails appear in duplicate when previewing, because we display them in HTML and text mode. This allows rendering in both possible configurations of email clients.

TWENTYSIX

HISTORY

In *Email Management > History*, you have access to all emails sent from the platform.

You can sort emails (by subject, recipient and date) using the arrows to the right of the column.

If you are looking for a specific email, prefer using the field *«Search in the table»*.

> **Warning:** The history does not allow to trace the history of the emails received, but that of the emails sent by the conference.

MANAGE REGISTRATION

If you have enabled the *Registration management* module, you will need to configure these features in order to open the public site.

Registration is configured in 2 stages:

– the general configuration of registrations

– the registration form for participants

Warning: you can change your registration form as long as there are no participants. If people have already registered for your conference, no changes to the form will be permitted.

27.1 General configuration of registrations

From the *Registration management > 1 – Configuration* menu, you have access to the general settings of registration.

You can therefore indicate the registration period during which the registration form will be accessible to future participants. Note that the dates entered here depend on those indicated in the *Administration > General Settings* menu.

Manual validation allows you to control each new registration made on the site. Similar to preregistration, with this option, you will have to validate each registration with the checkmark so that future participants can access the payment. An email is then sent automatically to the participant.

From this menu, you can also choose to alert administrators by email to each new registration. This alert makes sense if you choose a manual validation of registrants.

Here you can finally determine the maximum number of participants at your event if you have logistical constraints.

Tip: It should be noted that the information in this menu can be modified even if registrants are saved.

27.2 The registration form

To set up the registration form, go to *Registration Management > 2 – Form<.* Anyone wishing to register must complete this form.

The form is divided into four main parts.

27.2.1 Mandatory information about the user account

These informations are mandatory and not modifiable, it is part of the information relating to the user's Sciencesconf account.

27.2.2 Optional user account information

Some questions will be displayed, but not mandatory, these are additional informations. You can hide them if you wish.

27.2.3 Information on supervisory authorities

If you have enabled "Information on the affiliations of participants" in Step *1 – Setup*, you will be able to make the Affiliate Information options mandatory for future participants.

27.2.4 The customizable registration form

Finally, the "Register form" section deals with customizable questions.

They are of several types. These fields can be removed with the cross, changed with the pencil, and moved relative to each other with the arrows to the left of each element.

If you want to add customizable items, click "Add form item".
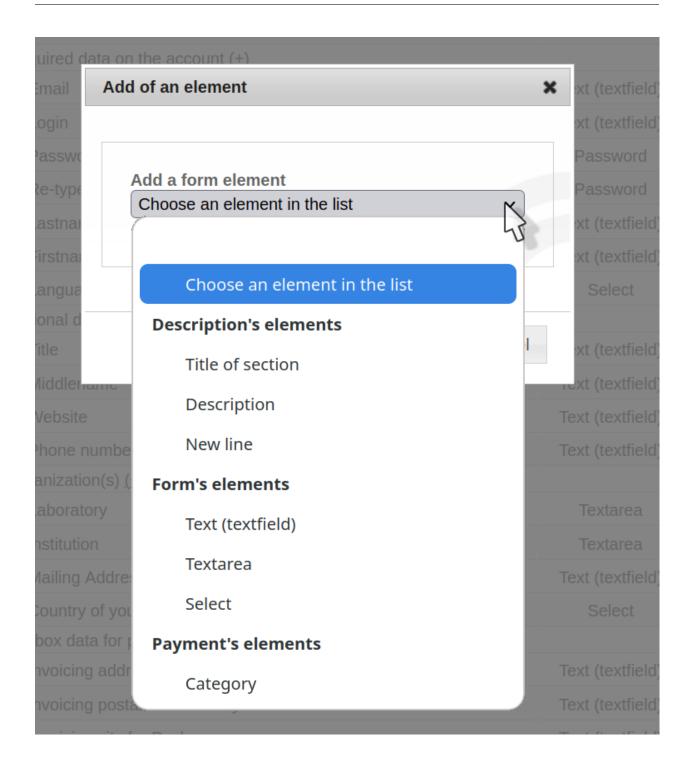

Registration management > 2 - Registration form

Registration form
Registration form   **Add a form element (+)**   **Preview of the registration form**
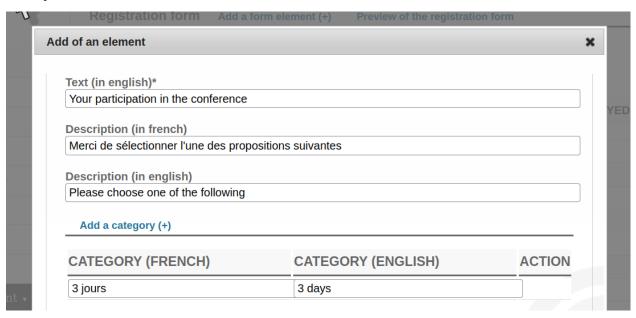

There are three types of elements:

1. *** The description elements*** (title, description and line break) will help you organize your form

2. ***Form elements*** where the expected response is text, multi-line text, or a choice from a select list

3. ***The payment element*** (category) that will allow you to define the different categories of participants (for example student, researcher, speaker, delegate, guest, etc.) and assign them a specific price in step *3 - Payment*

Payment's elements

Category

27.2.5 The category element and drop-down list

The *label* will be the information visible to the user. If you want to complete the label, use the *description* field.

Once this item is added and saved, and you want to set different rates, go to the *Registration management > 3 – Payment* menu. Automatically your statuses (aka registrant categories) will be visible in the "Fee registration" part. All you have to do is add rates and choose the payment methods you want.

The form can be previewed by clicking on "Preview of the registration form" displayed in blue beside "Registration form".

If you want to add additional options (paid or not), you can add Drop-down List items. You can choose the "yes/no" type for a gala dinner, or a "personalized list" if it is a list of places to visit.

Each value will then correspond to a particular place.

If you have not activated the payment module, you can open your site.

If you have enabled payment, refer to the *Payment setup* page

To manage registrants, refer to the *Participants* page

TWENTYEIGHT

PAYMENT SETUP

If you have enabled the Payment module, the configuration is done from the *Registration Management > 3 – Payment* menu
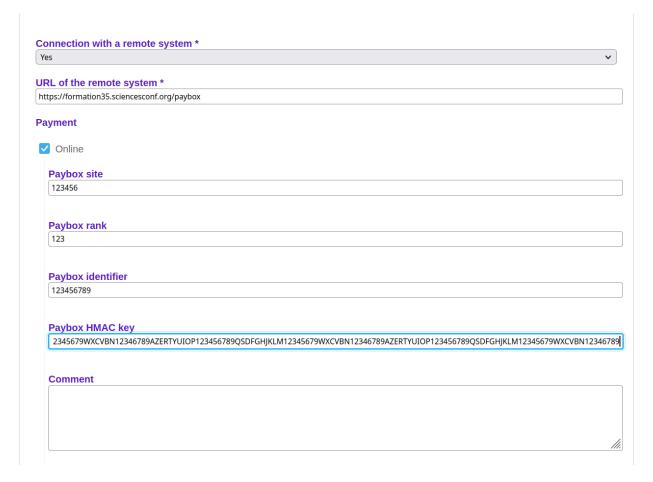

28.1 Choice of payment methods

The payment methods available on Sciencesconf are:

- inline payment

Si vous souhaitez mettre en place un service de paiement en ligne deux systèmes peuvent être mis en place sur Sciencesconf :

- via local payment system*. If the accounting department of your structure has a platform centralizing payments, then you must simply indicate its url in the field

- via système **Paybox** (Verifone)*. Sciencesconf se charge uniquement de faire le lien entre votre conférence et votre compte Paybox. Une fois ce-dernier ouvert, il faudra renseigner toutes les informations fournies par Paybox, suivant le modèle ci-dessous :

The operation of online payment is detailed in the following diagram: .. inline payment

Moreover, it is up to the conference organizers to manage the opening bank accounts. If you do not have a Paybox account (Verifone), you can request a creation from the Paybox site. For more information, see the Verifone FAQ section "Integrating verifone e-commerce solutions (Paybox)".

- payment by check

You must include the ORDER and mailing address in the box.

- payment by bank transfer

The account details must be filled in so that the registrants can proceed with the payment from their bank account to that of your accounting department. This is to indicate the IBAN BIC RIB.

- payment on the spot

If you want registrants to be able to pay for their registration directly upon arrival at the conference venue. You can select the accepted payment methods on site.

- payment by purchase order or administrative mandate

You must include the ORDER and mailing address in the box.

Payments made online will be automatically updated from the list of Registrants in *Registration*

management > Participants

The status of online payments automatically changes to green (validated) if the transaction has been finalized. For the remaining transactions, the Administrator (or Manager) will need to manually validate the payment as soon as the payment has been received.

More details on the Participants management page.

28.2 Select options

On this page, you can also define whether the amounts indicated are excluding tax or including taxes, and indicate the VAT rate to be applied to the amounts.

28.3 Registration fees setup
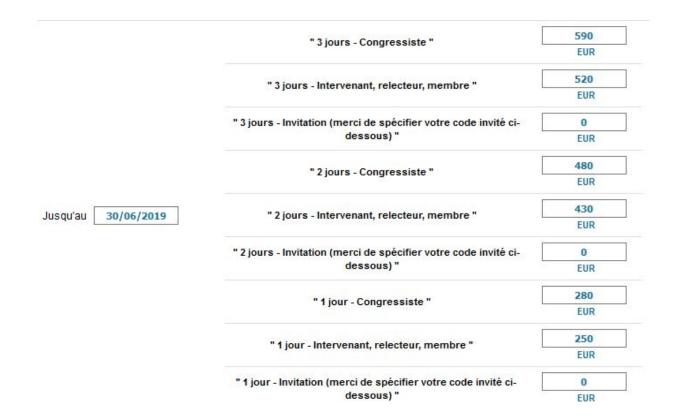

Registration fees are to be entered in this section.

The amounts must be entered **at least** until the registration end date that you set in *Registration Management > 1 – Configuration*

For the payment end date, it must not exceed the end date of your conference. This information can be found in *Administration > General Settings*.

28.3.1 Different amounts by Category
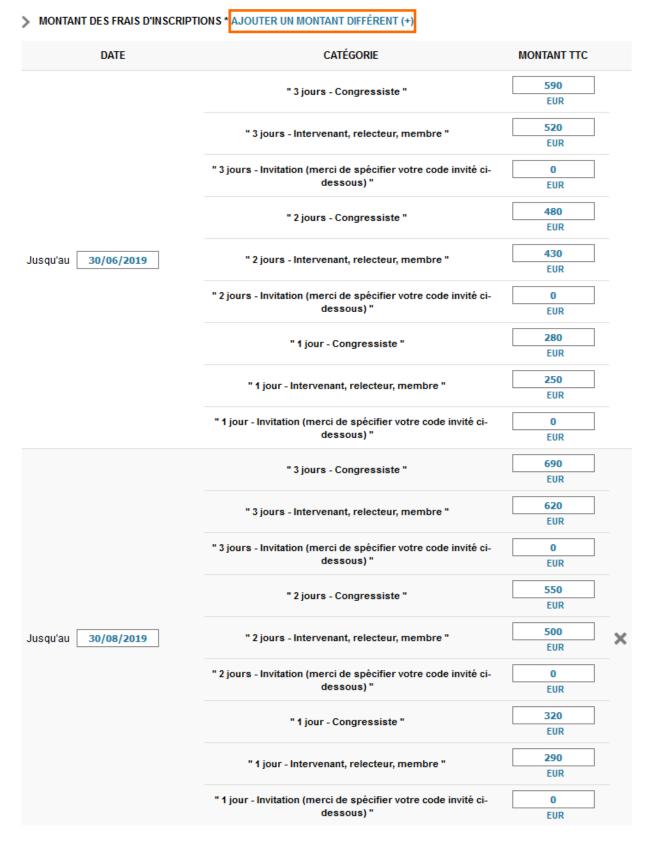

If you want registration fees to be different depending on the category of registrant (for example student, researcher, speaker, delegate, guest, etc.), you will find here the categories configured in the previous part of which you can define different amounts for each category. The amounts must cover the registration period configured in the *Registration Management > 2 – Form* menu

28.3.2 Different amounts by date

You can also set different amounts in relation to the registration dates.

To do this, click Add Amount and enter the different amount for each category from the date.

> **MONTANT DES FRAIS D'INSCRIPTIONS *** AJOUTER UN MONTANT DIFFÉRENT (+)

DATE	CATÉGORIE	MONTANT TTC
	" 3 jours - Congressiste "	590 EUR
	" 3 jours - Intervenant, relecteur, membre "	520 EUR
	" 3 jours - Invitation (merci de spécifier votre code invité ci-dessous) "	0 EUR
	" 2 jours - Congressiste "	480 EUR
Jusqu'au 30/06/2019	" 2 jours - Intervenant, relecteur, membre "	430 EUR
	" 2 jours - Invitation (merci de spécifier votre code invité ci-dessous) "	0 EUR
	" 1 jour - Congressiste "	280 EUR

	" 1 jour - Congressiste "	320 EUR
	" 1 jour - Intervenant, relecteur, membre "	290 EUR
	" 1 jour - Invitation (merci de spécifier votre code invité ci-dessous) "	0 EUR

- Additional amounts

Apart from the amounts by Category and Date, it is possible to add additional amounts.

The descriptions of these additional amounts have been configured in the previous section *Registration management > 2 – Form*

Below, you will see an example of an item of the type "Drop-down list"

☑ Inscrire une personne accompagnante (+ 110 €)	" Oui "	110	EUR TTC
	" Non "	0	EUR TTC
☑ Visites techniques et balade urbaine - Vendredi 5 juillet (1/2 journée, panier repas inclus) (+ 40 €)	" 1 - Métropole de Lyon - Renouvellement de l'espace public et gestion des eaux pluviales "	40	EUR TTC
	" 2 - Ville de Villeurbanne - Gestion de l'eau dans des quartiers en mutation "	40	EUR TTC

If you check the box for your item, you can add amounts that will be added to the registration fee.

If you do not check it, the information will be filled in by your registrants without affecting the registration amount.

Tip: If you wish to specify a rate containing centimes, you must use the period and not the comma as a separator.

When you have finished setting the different payment methods and registration fees, the *Open conference website* button will activate (My space).

You can now open the site to the public.

PARTICIPANTS MANAGEMENT
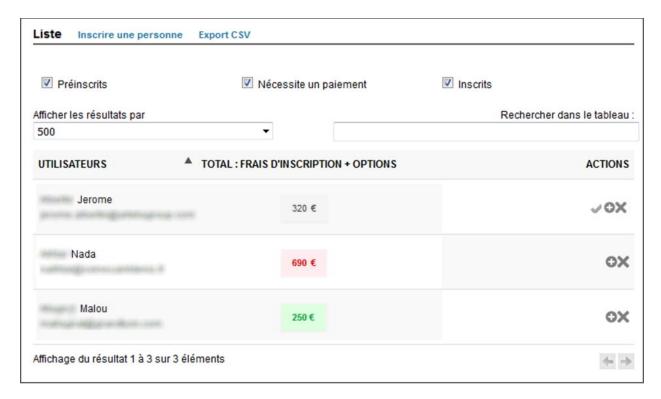

As a conference administrator or manager, you can perform various actions to manage registrations.

The manager has access to all registration tracking. By default, he visualizes the following actions:

29.1 View registrations

To view registrations, go to *Registration management > Participants*.

You will have access to the summary table of registrants presenting the participants, the amount of their fees, the status of their registration as well as the various possible actions on registration.
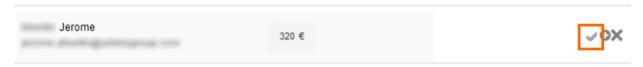

The color code will indicate the status of the registration:

- *Grey* : registration to be validated by the manager (pre-registration) or invalid registration (account not validated, method of payment not chosen)

- *Red*: payment pending, registration is in progress

- *Green*: payment received, registration is final

29.2 Validate pre-registrations

To validate registrations, go to *Registration management > Participants*.

If the conference administrator has chosen the manual validation of registrants, you can validate these pre-registrations by clicking on the checkmark to the right of each registrant.

29.3 Management of registrations

If you want to edit the registration, go to *Registration management > Participants* and click on the
+ icon to the right of the registration line.

This action allows you to:

- *See information*: view the registration form filled in by the registrant.

- *Validate registration*: the validation of the registration is also done by this means (in addition
  to the check mark seen

- *Modify the payment information*: you can change the payment method, send a confirmation
  email

- *Send a request for payment*: if you click on this button, a payment request is **automatically**
  send by email to participants.

- *Edit information*: you access the form and modify all the information related to this registra-
  tion.

29.4 Delete a registration

If you want to delete a registration, go to *Registration management > Participants* and click on the
cross to the right of the registration line.

> **Warning:** Any deletion of registration is final!

29.5 Register a person

To register a person, they must have an account on Sciencesconf.org. If not, see "Create an account for a user".

> **Tip:** HAL or Episciences accounts can be used on the Sciencesconf.org. The login is also done using the username (login) and the associated password.

If you want to register an individual, go to *Registration management > Participants* and click on "Register someone".

List   **Register someone**   **CSV Export**

Start typing in your email ID or address or name to see a drop-down list that matches the information entered. Then select the desired user and click the **Select** button.

The registration form appears. Fill in at least all the mandatory information (indicated by an asterisk) before saving. You will then see a summary. If the information is correct, click **Validate** otherwise click **Modify data**.

Récapitulatif Modifier les données

Valider

After validation and, if your site allows, the person will automatically appear in the list of Participants.

29.6 Export list of registrants

If you want to export the Registrants list, go to *Registration management > Participants* and click on "Export CSV".

The export contains all the fields of the registration form as well as the status of the payment (one line per participant).

Vous pouvez alors utiliser les données exportées pour éditer des badges ou des factures comme indiqué dans publipostage.

29.7 Create an account for a user

If a user fails to register on your site, you have the ability to create an account. To do this, go to *Administration > Create an account*. Fill in all the required information and remember down the username and password.

The ID is a non-modifiable field and it will be up to you as a manager to communicate the ID and password to the person for whom you have just created an account. In this case, the person does not receive an email to validate the account creation. The account is automatically validated.

EDITORIAL MANAGEMENT

If the Editorial Management module and its sub-modules are active, the site administrator must configure some functionalities before the site can be made visible to the public.

30.1 Definition of deposit types

By default, the deposit types are "oral" and "poster". If you want to add or change repository types, go to *Editorial Management > Submission type.*

In this section, you can define if the type of deposit is affected by the reviewing and if the depositors will have to choose a topic.

30.2 Definition of topics

The topics can differentiate the main themes of the conference. They are necessary for program session setup and reviewing.

To configure the themes, go to *Editorial management > Topic*. You can define as many themes as you want.

For example: the topics «light» and «sound» will allow you to give the title of your sessions in the program. Each deposit can be linked to a topic.

30.3 Submission configuration

To set the deposit rules, go to *Editorial management > Configuration<*.

30.3.1 Submission rules

The first part concerns the rules of deposit: type of document (abstract, abstract then fulltext or fulltext only), dates of deposit, format of abstract (text box or file), limit of the number of deposits per contributor and finally, configuration of the various alerts (e-mail to depositors, coordinators and reviewers). The items to be configured depend on the document type.

30.3.2 Setting up the input grid

The second part concerns the form which the applicant must complete at the time of submission. It concerns the metadata specific to the document and the authors. Some of this information may be made mandatory, others are not modifiable.

Submission grid

Define the information requested from contributor when submitting.
"DISPLAYED" means information requested during submit;
"MANDATORY" means compulsory information.

METADATA	DISPLAYED	MANDATORY
Title	☑	☑
Abstract	☑	☑
Submission type and set of topic(s)	☑	☑
Language	☐	☐
Date written	☐	☐
Keywords	☐	☐
Comment	☐	☐

AUTHOR(S)	DISPLAYED	MANDATORY
Lastname	☑	☑
Firstname	☑	☑
Middlename	☐	☐
Corresponding author	☐	☐
Research team	☐	☐
Email	☐	☐
Author's website	☐	☐
Affiliations *By default, an affiliation is required for at least one of the authors. If you tick "MANDATORY", each author will have to be associated with at least one affiliation.*	☑	☐

AFFILIATION	DISPLAYED	MANDATORY
Name	☑	☑
Initials	☐	☐
Website	☐	☐
Address	☐	☐
Country	☑	☑
Organization (for French laboratories)	☑	☑

Tip: If your site plans to use this module, the configuration must be completed before the site opens. As soon as deposits have been registered on your site, it is strongly advised not to change the configuration. Any changes may have an impact on the repositories themselves, on the proceedings or on the program.

30.4 Consultation rights

You can make the contributions of your conference (abstracts and/or fulltext) searchable if you use the *Consultation by*

To do this, you must define the document accessibility period for each role after validation by the coordinator or from a given date.

If you do not fill in any rules, the documents will not be available for consultation.

30.5 Viewing submissions

Deposit statuses are: Initial, Note, Accepted, Refused and Awaiting update.

As administrator-coordinator, one of your roles is to accept, refuse or request changes from depositors.

To change the status of a deposit, go to Editorial Management > Submissions. If the deposit has a note, it means that the deposit has been reviewed.

To view the deposit, click on the card to the right of the relevant deposit. You will have access to its file and the document in pdf version. This way you will have access to several types of information:

30.5.1 Submission history
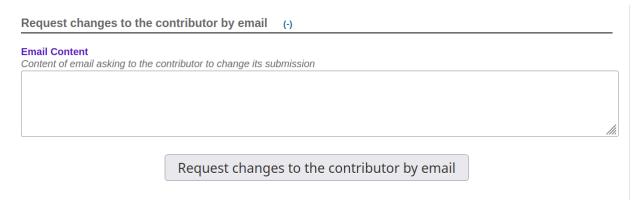

You access the history of the various actions made on the deposit (date, by whom, etc).

30.5.2 Reviewers evaluations

If the repository has been reviewed, you can see the details of the rating by the reviewer(s): notes, possible comments, opinions on the topics and types of repositories.

30.5.3 Request changes to the contributor by email

If you wish to request modifications from the applicant, you have the possibility to enter the content of the email directly into the insert provided for this purpose. Then click on the `Request changes to the depositor by email` button, sending is immediate.

Request changes to the contributor by email   (-)

Email Content
Content of email asking to the contributor to change its submission

[Request changes to the contributor by email]

30.5.4 Annotate

You can enter internal notes (between coordinators).

30.5.5 Actions

Finally, in this part, you confirm or modify the type of deposit, the topic and you can enter comments for the depositor. Attention, you must save this comment. The mailing will be done in the *Mailing management > Mailing* section. This option allows you to enter comments for each repository and send all comments at the end of the selection.

Accept, Decline, and Save comment for depositor

After checking the notes and ratings of the reviewers and after confirming the type and topic of the repository, you can choose the action you want to perform.

To return to the deposit dashboard, go to *Editorial Management > Submissions*.

| Accept | Refuse | Delete | Save comment | Back |
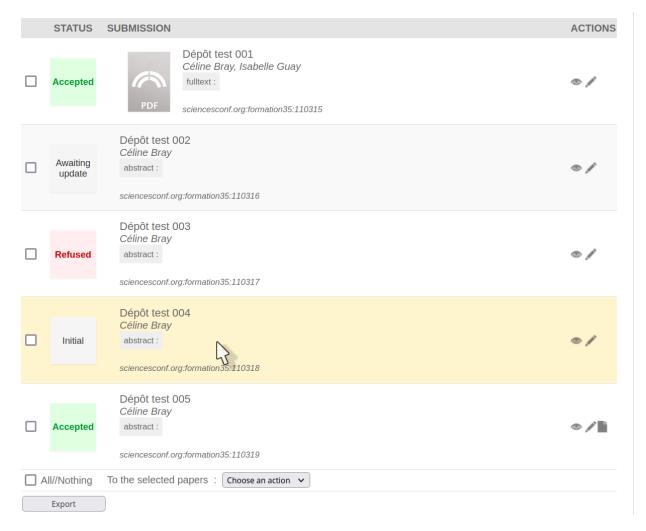

Change of deposit and change of status "en masse"

To change the deposit, click on the pencil to the right of the deposit.

This way you can make changes or corrections to the information that describes the document.

In addition, the check boxes on the left allow you to perform actions on all selected deposits. After selecting one or more deposits, you will find at the bottom of the page a drop-down list allowing you to perform two types of actions: change of status or deletion of the deposit.

STATUS	SUBMISSION	ACTIONS
☐ Accepted	Dépôt test 001 *Céline Bray, Isabelle Guay* fulltext : *sciencesconf.org:formation35:110315*	👁 ✏
☐ Awaiting update	Dépôt test 002 *Céline Bray* abstract : *sciencesconf.org:formation35:110316*	👁 ✏
☐ Refused	Dépôt test 003 *Céline Bray* abstract : *sciencesconf.org:formation35:110317*	👁 ✏
☐ Initial	Dépôt test 004 *Céline Bray* abstract : *sciencesconf.org:formation35:110318*	👁 ✏
☐ Accepted	Dépôt test 005 *Céline Bray* abstract : *sciencesconf.org:formation35:110319*	👁 ✏ ▮

☐ All//Nothing   To the selected papers : Choose an action ▾

Export

As long as the deposits are in the **Initial** or **Awaiting update** status, the deposit can be modified by the depositor.

If the deposit has a note or is refused, the depositor may no longer amend it.

If the deposit is accepted, the deposit can only be modified by the coordinator administrator. If a change is made, the status is restored to the original, and you will need to change it again.

30.6 Electronic document management
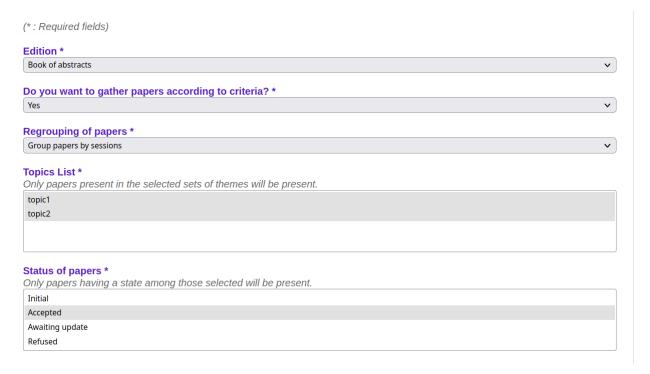

To edit the book of abstracts or proceedings, click on *Editorial Management > Proceedings*

30.6.1 Book of abstracts

When editing the book of abstracts, there are three steps.

| **1** Date source | **2** Supplementary data | **3** Display |
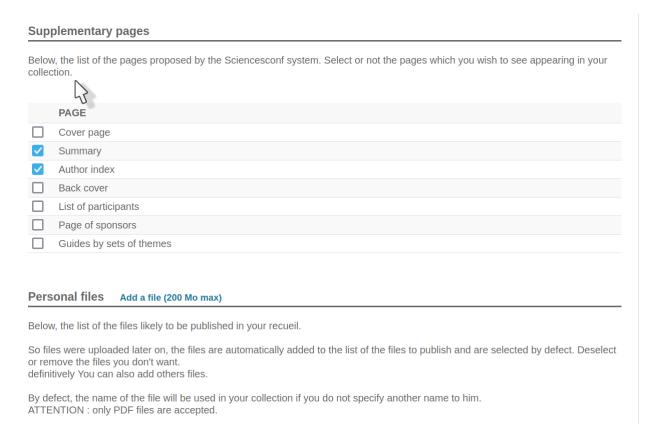

In the first step, you can choose whether or not to group the abstracts by criteria (for example by topic or by day).

(* : Required fields)

Edition *

Book of abstracts

Do you want to gather papers according to criteria? *

Yes

Regrouping of papers *

Group papers by sessions

Topics List *
Only papers present in the selected sets of themes will be present.

topic1
topic2

Status of papers *
Only papers having a state among those selected will be present.

Initial
Accepted
Awaiting update
Refused

The grouping of papers per day is only available if you have chosen to configure the Sciencesconf Program module.

In step 2, you can add additional pages proposed by Sciencesconf or personal files in PDF format.

Supplementary pages

Below, the list of the pages proposed by the Sciencesconf system. Select or not the pages which you wish to see appearing in your collection.

	PAGE
☐	Cover page
☑	Summary
☑	Author index
☐	Back cover
☐	List of participants
☐	Page of sponsors
☐	Guides by sets of themes

Personal files Add a file (200 Mo max)

Below, the list of the files likely to be published in your recueil.

So files were uploaded later on, the files are automatically added to the list of the files to publish and are selected by defect. Deselect or remove the files you don't want.
definitively You can also add others files.

By defect, the name of the file will be used in your collection if you do not specify another name to him.
ATTENTION : only PDF files are accepted.

Finally, in step 3 "Display", you can change the order of the different parts and sort the papers by type of deposit, title, deposit date, first author or first speaker.

ORDRE	PARTIE		
✛	Table des matières		
✛	Papier(s) [son]	--Tri-- ▾	ⓘ
✛	Index des auteurs		

(* : Champs obligatoires)

Voulez-vous inclure une pagination ? *
Oui ▾

Dans quelle langue souhaitez-vous éditer ? *
Français ▾

If you want to include pagination and your book has a table of contents, pagination errors may occur. This is because of the location of the table of contents. If it is very long, it is customary to place it at the end of a document.

Once all your options have been chosen, you will get a PDF file, a TeX file (editable with external software like TeXMaker) and a log file (which lists compilation errors).

30.6.2 Acts

The proceedings are edited in the same way as the abstracts. They contain the fulltexts of the conference. The three steps, "Data Source", "Supplementary data" and "Display" will need to be set up before editing. You can read the previous section to get more information about these three steps.

PROGRAM MANAGEMENT

This module allows you to configure your conference schedule.

Adding the "Session" event type will extract the titles from the accepted submissions in the Deposit module.

In case you are not using the Editorial management module, the Program module may not be very informative. In this case, the administrator or webmaster can create a page of type Customizable to create his program freely or a page of type File, to import a program that he has worked freely.

For more information, see *Website management*

31.1 Adding events

To set up your conference program, go to *Program > Administration*

In this section, you can add several types of events to your conference dates.

The types of events are:

* Session

It is defined by the start and end times, the topic, the president of the session and the room. For this type of event, you can add the submission linked to the session (topic) by clicking on the file icon. Only accepted submissions can be added.

* Speech

It is defined by the start and end times, the speaker's name, the title, the room and possibly the addition of a file.

- Logistics

It is defined by the start and end time, the title, the description and possibly a file.

- Break

It is defined by the start and end time, the type of break (break, coffee break, breakfast, lunch, etc.), the title, the room and possibly a file.

- Tour
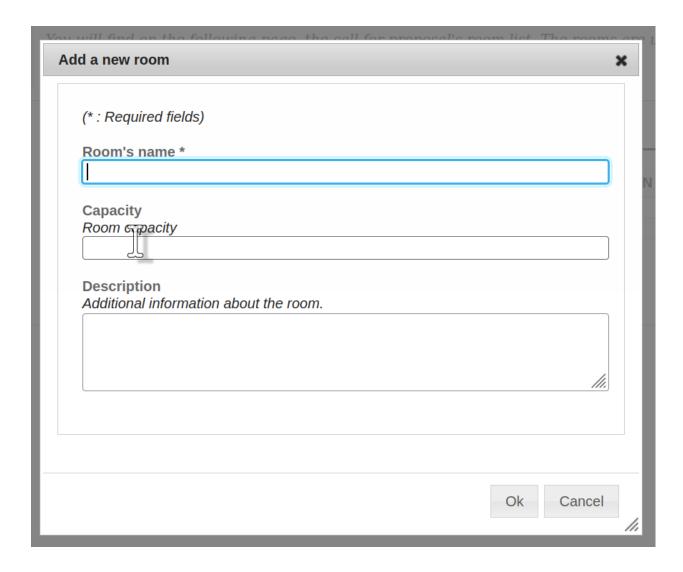

It is defined by the start and end time, the title, the description and possibly a file.

At the top of the page, you will find a link allowing you to export in the .csv format of the program.

31.2 Addition of rooms

This menu allows you to define the rooms for the conference. The rooms will then be proposed in association when managing the schedule.

It is possible to indicate for each room its name, its capacity and possibly a description of it (equipment, accessibility etc.).

Add a new room ✖

(* : Required fields)

Room's name *

Capacity
Room capacity

Description
Additional information about the room.

Ok Cancel

31.3 Appearance of the program

31.3.1 View selection

In the Program, you have the option to set the default program view presented to users in the Program page. Available views are: weekly, daily or detailed.

The first two views are displayed graphically with a table.

The detailed view presents a list view, which is more suitable for printing and is more suitable if the session titles are very long:

Wednesday, July 5, 2023

| TIME	EVENT
13:00 - 14:30	Welcome Coffee - Badge & Program (Foyer)
14:30 - 15:00	Opening Speech and Conference Introduction (Auditorium)
15:00 - 16:30	1. Orality, Environment and Writing (Salle 4.06) - President : Xavier Garnier
15:00 - 15:20	› L'oralité comme passerelle pour un discours écopoétique : In Jean Bofane et Véronique Tadjo - *Kasongo Kapanga*
15:20 - 15:40	› Orature In Ojaide's Eco-Poetics In Love Gifts - *Edoama Odueme*
15:40 - 16:00	› La réécriture de « l'oranger magique », conte populaire haïtien par Mimi Barthelemy : du conte initiatique au conte écologique - *Veronique CORINUS, LAM*
15:00 - 16:30	2. Water as a Source of Life and Death (1) (Salle 4.13) - President : Jacomien Van Niekerk
15:00 - 15:20	› L'eau dans les traditions orales : Cas de l'Ajmak d'Achtouken (Sud-ouest marocain) - *Rachid Baalla, Laboratoire de Recherche Langue, Littérature et Identité LLCI, Faculté des Lettres et des Sciences Humaines Agadir*
15:20 - 15:40	› Water as a source of life and death: a comparative study of the folklore of the Luo and Kalenjin communities in Kenya - *Jacqueline Kandagor (with the collaboration of Cellyne Anudo)*
15:40 - 16:00	› The Oral Narrative And Environment: Coping With Water Related Disasters In Bukusu Oral Narratives - *Kimingichi Wabende, University of Nairobi*
15:00 - 16:30	3. Listening to Ecosystems (Salle 4.15) - President : Antoinette Tidjani Alou
15:00 - 15:20	› La leçon animalière, l'écosystème responsable, et les femmes : exemple de la langue duala (Cameroun) - *Toman Cheryl, University of Alabama (en collaboration avec Therese Kuoh Moukoury)*
15:20 - 15:40	› Conte africain et biodiversité - *Adja Aboman Béatrice Kakou*
15:40 - 16:00	› From Oral to Written: Rethinking Ngugi's Ecological Narratives - *Dele Maxwell Ugwanyi, Enugu State University Of Science And Technology, Enugu*

You can also set all available views for the program: week, day and detail. They will appear above the default program. To choose multiple views, simply click on the pages you are interested in by simultaneously clicking on the CTRL key.

In addition, if you have used the Sciencesconf deposit module, you will be able to add links to accepted communications.
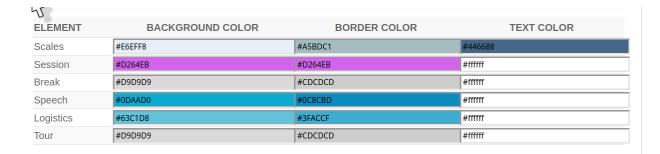

31.3.2 Customization

Customization of the program can be done quickly or advanced.

- Quickly

This configuration allows you to choose the background color, border and text of the different elements of the program.

The different elements are scale, sessions, breaks, speeches, logistics and tours.

ELEMENT	BACKGROUND COLOR	BORDER COLOR	TEXT COLOR
Scales	#E6EFF8	#A5BDC1	#446688
Session	#D264EB	#D264EB	#ffffff
Break	#D9D9D9	#CDCDCD	#ffffff
Speech	#0DAAD0	#0C8CBD	#ffffff
Logistics	#63C1D8	#3FACCF	#ffffff
Tour	#D9D9D9	#CDCDCD	#ffffff

You can choose the desired color with the Color picker tool. First choose a color from the color chart in the circle and then define the color by clicking on the square.

- Expert

If you choose the expert configuration, you can directly modify the source code of the style sheets for the program and thus go further in the customization of the tool.

EXPORT TO HAL

As a conference site administrator, you have the ability to export your conference's validated fulltext to HAL. They will be grouped into a collection.

32.1 legal prerequisite

If you, Sciencesconf conference organizers, wish to deposit the papers in HAL, two situations are possible:

- if you have planned the export before submitting the communications in Sciencesconf, this must be specified on the site,

- You must ensure that you have the consent of the authors to transfer the fulltext of the communication to the open HAL archive.

32.2 technical prerequisite

At the setting of your conference

- the deposits must be of type Fulltext or Abstract+Fulltext

- abstracts should be "text" type

32.3 export process

1 **export request**

you make the export request in Sciencesconf by specifying the list of fulltext to be exported to HAL by using the menu Editorial management -> Export of papers to HAL

2 ** what we are going to achieve**

- we create the collection corresponding to the conference in HAL and proceed to a minimal configuration of it

- we export the full texts requested

- we may supplement deposits and model them in HAL

- the conference organizer owns the repositories (to be validated)

3 ** management of your HAL collection**

You then have the possibility to modify the deposits of your HAL collection: addition of the summary, keywords, verification of the authors, their IdHAL and their affiliation.

THIRTYTHREE

REVIEWING MANAGEMENT

If you have enabled the review module, the configuration is done in three steps:

- The first step is to configure the reviewing module (dates, reviewing grid, anonymization, etc.)

- The second step is to add reviewers (they must have an account on Sciencesconf)

- Finally, the final step is to distribute the papers to the reviewers.

33.1 Reviewing setup

33.1.1 Reviewing rules

First define the reviewing rules from the *Reviewing* > *Configuration* menu.

You will have the opportunity to:

- anonymize submissions

- define the reviewing periods by type of repository (created during the configuration of the editorial management)

- make reviewers evaluations available to depositors

- choose the method of sending the email following the coordinator's decision.

33.1.2 Setting up the notation grid

Ensuite, configurez la grille que le relecteur utilisera pour évaluer les dépôts. Vous pouvez créer une seule grille pour tous les dépôts ou plusieurs grilles par type de document (résumé et/ou texte complet) et/ou par type de dépôt. Une grille est constituée d'un nom et d"autant de critères que nécessaire (au moins un). Chaque critère comporte au moins 2 valeurs à choisir de 0 à 10.

From the *Reviewing > Notation grids* menu, you will create rating grids for document types (summary and/or full text) and/or for the repository type (oral, poster) of your site.

Once the type of the notation grid is selected (Abstract grid for example), you will add criteria by clicking on "Add criteria" .

For each criterion created, you will give it values. You can name up to 10 values (e.g. bad, average, good, etc.). If, however, you prefer to indicate fewer values, it is recommended that the values be spread over all the notes and not grouped from 0 to 5. In this way the score will be calculated on 10.

Then you have the option of adding a weighting for each criterion. If all your criteria are of the same importance, choose the equivalent weighting (for example to 1). A weighting of 0 will indicate that the criterion is not considered in the calculation of the final score.

Finally, you can choose to add a "comment" field for the reviewer to add their comments to each criterion.

An example of a notation grid:

Notation criterias   **Add a criteria (+)**

Define scoring criteria to enable reviewers to evaluate deposit. A score out of 10 is automatically calculated for each deposit. The possible scores range from 0 (worst) to 10 (best)

CRITERIA	VALUES	WEIGHTING	COMMENT	ACTIONS
✛ Formulation of the problem	**0** - Very unsatisfactory **3** - Unsatisfactory **5** - Mean **7** - Satisfactory **10** - Very satisfactory	1	Yes	✎ ✖
✛ Importance - Originality of the subject dealt with	**0** - Not very **3** - slightly **5** - Moderately **7** - Quite **10** - Very	1	No	✎ ✖

33.2 Add reviewers

To add a reviewer, go to *Reviewing > Reviewers* and click on "Add a new reviewer".

Commencez à saisir l'identifiant du relecteur, ou à défaut, son nom, prénom ou adresse mail. Lorsque l'utilisateur apparait sur la liste, sélectionnez-le.

If the reviewer does not have a Sciencesconf account, contact the user to create an account. Otherwise, contact the conference administrator or manager. Indeed, the administrator and the manager can create accounts for third parties, but be careful, it will be up to the administrator to provide the account information to the user.

33.3 Distribute papers

Once you have added the desired reviewer(s), you must distribute the submissions to the reviewers. There are two ways to distribute submissions to review.

33.3.1 Distribution by theme

Click the pencil to the right of your reviewer's line. This will allow you to view all the themes associated with your submissions. The list of themes is defined by the site administrator.

Click on the themes you want to associate with this reviewer and then click Ok.

You will see the number of submissions that the reviewer will need to review.

There can be several reviewers for a theme.

33.3.2 Distribution of certain papers associated with a them

If you want to choose some papers of a theme and not all papers, click on the number of submissions to review. This information is displayed in blue.

▲ REVIEWERS	⬍ TOPICS / SUBMISSION TYPES	⬍ ACTIONS ⬍
👤 Compte Relecteur Demo (*relecteur-demo*) contact@sciencesconf.org	› topic1 **[1 paper(s) / 1]**	✎ ✖

The list of papers associated with the theme is displayed. Check the titles you want to assign to the reviewer.

Tip: Si vous souhaitez utiliser ce type de répartition, nous vous conseillons d'attendre la fin de la période de soumission

---

so that you can distribute all submissions at the same time.

There may be multiple reviewers for the same submission, there is no limit on the number of reviewers.

FAQ

34.1 I have changed institution, what should I do ?

If you wish to access your account, but your email address has changed, you must update your profile.

To do this, go to *My Space > My Profile* and change the address.

34.2 I did not receive the e-mail to change my password

Are you sure your email address is valid? If so, check your spam box, it may have been redirected.

It is also possible that you have multiple accounts which affects sending the password reset email.

Contact support, our services will update your account so you can retrieve your login credentials.

34.3 I can't log in to Sciencesconf

If you have forgotten your password, you can request a new one using the following form https://portal.sciencesconf.org/user/lost (you will be asked for your login or your e-mail address).

If you manage to log in, you can change your password again in: *My account > Edit my account > Password*

34.4 A want to delete my Sciencesconf account, what do I do ?

If you wish to delete your account, it is necessary to make a request directly to support

34.5 My email address has changed, what is the process ?

You can update your email address in *My space > My profile* after logging in.

If you have lost or forgotten your login details, report your new address to support. Our services will update your account.

34.6 The different roles

the different roles

34.7 I want to edit badges or invoices for participants

The first step is to export the list of registrants in a .csv file. Go to "Management of registration" -> "Registered", filter the data if necessary and click on "Export CSV". Use the mailing to format the data.

VIDEO CLIPS

Video tutorials are available on the CCSD channel Canal U :

Your request to create a conference on Sciencesconf has just been approved, and you discover the Sciencesconf website ? In this video (in french), the CCSD accompanies you to take your first steps on the platform and on your conference site

Sciencesconf allows you to receive abstracts and/or fulltexts of your conference papers, and transfer the full texts to HAL. In this video (in french), we explain the characteristics of the different types of documents that can be deposited on Sciencesconf.

Sciencesconf allows the filing of files annexed to the abstracts and fulltexts, the files are then designated as supplementary data, or additional data. Find out how they work here (in french).

To evaluate abstract and full-text submissions, you can develop your own scoring grid, with custom criteria, ratings, and weightings: this video (in french) introduces you to this feature.

`The payment tool of Sciencesconf allows you to differentiate the rate according to the categories of your choice. Learn here (in french) how to create your categories and enter rates for each of these categories.

The Sciencesconf payment tool allows you to use the Paybox protocol. This video (in french) guides you in the implementation of this protocol with the 3D-secure v2.

MEDIAS

36.1 Presentation at the University of Montpellier

On Tuesday, January 23, 2024, as part of the webinars offered by the open science training team of the University of Montpellier, the CCSD presented the Sciencesconf platform.

```
